YALE VICTOR

Ahead at the Finish Line

BEAUTIFUL FORM SHOWN BY WINNERS

Was Most Bitterly Contested

Regatta Course, New London, Conn. June 21 .- Rowing a beautifully-timed race. Yale gained the Thames regatta prestige here at dusk yesterday, defeating Harvard in the four-mile varsity event by a scant half length of open water after one of the bitterest aquation struggles ever staged on this historic waterway. For more than a mile and a half the two knife-like racing craft paced side by side under the propulsion of the powerful strokes of the oarsmen and so close were they aligned that the official timers could not detect a fraction of a second difference at the various

The victory breaks the tie which has existed since the last big race when Har-vard by sweeping the river won her 25th big race and drew even with Yale in the series of inter-varsity contests which date back into the early fifties.

It was not until the two-mile posts were reached that the Blue blades could drive the bow of their shell even a few feet ahead of that of the Crimson, but once this advantage was gained the Harvard crew, rowing with dogged determination and gameness seldom seen in such four-mile races, was unable to creep back into a tie, let alone shove its bow into the lead.

The Cambridge crew made a desperate attempt to turn defeat into victory half a mile from the finish and for a moment picked up a trifle of the distance, but Yale answered with a spurt which slowly drew the Blue away as the Crimson oarsmen, exhausted by their efforts, rolled on their slides and slowly lost headway with the finish almost within their reach.

Refinement and Snobbery,

According to the Waterbury Record the city of Barre is getting to be considerable of a convention city and in an editorial this fact is set forth in definite shape hardly to be misunderstood, "The snobbish rich class do not live in Barre,' the closing praise bestowed upon the Granite city, by the article. Just what part of Vermont is being hit by such a thinly veiled taunt is not known, but Burlington needs no introduction to the convention world and its superior position as the Queen city of the state. means that it is also the Mecca of most of the large conventions throughout the state, so it can well afford to give generous encouragement to its rival and wish it all the success one good Vermont town should wish another in its effort to progress. There is refinement and there is snobbery. Sometimes the two are confused, particularly where the mind is not of a discriminating nature. Burlington News.

WANTS JAPANESE BARRED. Sen. Phelan of California Says They Are Making "Silent" Conquest.

Washington, D. C., June 21.—Cancellation of the so-called gentlemen's agreement with Japan and prohibition of all immigration from that country was urged before the House immigration committee by Senator Phelan, Democrat, of California, who declared the Japanese rapidly were making a "silent" conquest of the western hemisphere. America's next war, he said, would he "on the Parific and not on the Atlantic."

"The Huns of the East have come," Senator Phelan declared. "Already they have spread over California and are stripping the state of its Americanism. They have invaded South America, and have obtained a firm foothold in Mexico, where they are protected and are a part of the Carranza machine. Some day the Mexican and Japanese problem will come to smite us with united force."

Senator Phelan said he had no sym pathy with the "percentage" plan of im-migration, which would permit Japanese to come into this country at the annual rate of from 3 to 5 per cent of those already here.

"The Japanese are not to be compro nised with," he asserted. "They must be eliminated entirely, like a swarm of locusts, which they alone equal in eco-nomic destructiveness. Legislation should be enacted to bar them entirely. This might hurt Japan's feelings, but Amer-

COLLEGES NOT BREEDERS OF DANGEROUS DOCTRINE

Nor Fomenters of Unrest, Former Justice Charles E. Hughes Said in Semi-Centennial Address at Cornell University.

Ithaca, N. Y., June 21 .- Former Justice Charles E. Hughes, in an address here yesterday at the semi-centennial celebration of Cornell university, depre-cated as mischievous the "extravagant assertions and unwarranted generalizations" that American colleges and universities are "breeding centers of dangerous doctrines and fomenters of unrest, "Free speech is essential to a republic," declared Mr. Hughes, "but free speech without the insistent demand by the community for fair speech is the opportunity for rogues and demagogues. sound critics, who can discern and analyze, who can point out falsity, who hate lies and pretense, these are the salt

Democracy cannot be saved by arms. Our victory has preserved the opportunity to have democracy. But it remains for the test ing days of peace to determine whether democracy itself can be pre-The success of this endeavor must be the result of many co-operating forces, pre-eminent among which will be the sentiment and convictions of men trained in the higher institutions of learning

"The battle for free government is never completely won," continued Mr. Hughes. "It is an age-long struggle against foes without and more insidious and dangerous foes within. Now, with tyrants overthrown and autocracy destroyed in its last citadel, we must fight Where in democracy should we look for the champions of the fundamen tal principles of liberty, if not to the students of history—to those who have pondered over the long contests for equal rights?

"Democracy demands loyal acceptance of the determinations of the majority. but the majority to which it requires obedience is that of free citizens of equal political privilege. It demands respect for its own institutions as such. If they function imperfectly, strive for their im provement. They who would bring into contempt the essential tribunals of tice, who sow the seeds of scorn for the processes through which alone men can substitute law and order for brutishness and violence, are traitors to democracy itself and bring a curse upon their own

"There can be no progress unless there is respect for the processes of orderly government. Against all those who coun sel violence and anarchy we stand united and resolute. We shall settle no other continue as long as "the Wilson administration stands on record as denying us
